

Akshay Nrusingh Panigrahi

Agentic AI Developer

✉ akshaypanigrahi7@gmail.com 📞 7008550331 📍 Bangalore 🌐 Akshay 🔗 Akshay_portfolio 🐙 GitHub

PROFESSIONAL SUMMARY

Agentic AI Developer with 3+ years of experience building AI-powered systems, autonomous AI agents, RAG pipelines, and scalable backend services across enterprise environments. Specialized in Generative AI, multi-agent orchestration, vector databases, workflow automation, and LLMops using frameworks like AutoGen, LangChain, LangGraph, and CrewAI. Experienced in developing enterprise-grade AI applications with strong expertise in Python, APIs, cloud infrastructure, and AI workflow automation.

PROFESSIONAL EXPERIENCE

- AI Product Owner, UHC Staffing** 05/2023 – 03/2026 | Remote
- Built enterprise-grade Agentic AI systems using AutoGen, LangGraph, CrewAI, and LangChain for intelligent workflow automation.
 - Developed autonomous AI agents with reasoning, memory, tool execution, and API orchestration capabilities.
 - Designed scalable RAG pipelines using vector databases (Qdrant, FAISS) for semantic search and enterprise knowledge retrieval.
 - Built AI-powered chatbots, FastAPI microservices, and REST APIs for enterprise AI applications.
 - Implemented workflow automation using n8n and deployed scalable AI systems on AWS & Azure using Docker, Kubernetes, and CI/CD pipelines.
 - Improved operational efficiency by 40% and delivered enterprise RAG systems with 90%+ retrieval accuracy.

Earlier Professional Experience

- 10+ years of experience in Digital Marketing, SEO, UI/UX Design, Website Development, Social Media Marketing, Email Marketing, and Business Automation across multiple industries. Specialized in building growth-focused digital platforms, marketing automation workflows, lead generation systems, and user-centric web experiences.

EDUCATION

- Product Management with Generative & Agentic AI, BITsOM** 07/2025 – 03/2026 | Remote
- AI Generalist - Build with AI, Build School** 11/2024 – 09/2025 | Remote
- MBA in HR & Marketing, IMIT** 08/2018 – 06/2020 | Cuttack, Odisha
- B.tech in Biotechnology, GIET** 09/2007 – 05/2011 | Gunupur, Odisha

TECHNICAL SKILLS

- **Agentic AI & LLMs:** AutoGen, LangChain, LangGraph, CrewAI, MCP, A2A, AI Agents, Multi-Agent Systems, RAG Pipelines, Prompt Engineering, Fine-Tuning, Inference Optimization
- **Programming & APIs:** Python, SQL, FastAPI, REST APIs, Microservices, API Integrations
- **Vector DB & Storage:** Qdrant, FAISS, ChromaDB, PostgreSQL, Redis, Supabase
- **Cloud & DevOps:** AWS, Azure, Docker, Kubernetes (EKS/AKS), CI/CD, GitHub Actions, LLMops
- **Automation & Product:** n8n, Workflow Automation, SEO, UI/UX, Website Development, Marketing Automation

SOFT SKILLS

Stakeholder Communication, Problem-solving, Analytical Thinking, Cross-functional Teamwork

PROJECTS

- **AutoFounder AI** – Autonomous Startup Builder PlatformBuilt a multi-agent SaaS platform using AutoGen, LangGraph, CrewAI, and RAG workflows for startup validation, PRD generation, autonomous code generation, deployment automation, and GTM orchestration.
- **RAG Base Enterprise Chatbot** - Developed an enterprise grade RAG chatbot with document ingestion, embeddings, semantic retrieval, vector search, contextual memory, and FastAPI backend integrations.
- **ResumeBase AI** – ATS & Resume Intelligence PlatformBuilt AI-powered ATS and resume intelligence system for resume parsing, candidate scoring, semantic job matching, and hiring workflow automation.

KEY ACHIEVEMENTS

- Improved operational efficiency by 40% through AI-driven workflow automation.
- Delivered enterprise RAG systems with 90%+ retrieval accuracy.
- Reduced manual business processing time significantly using autonomous AI agents and workflow orchestration.
- Accelerated AI development lifecycle through reusable multi-agent frameworks and scalable cloud deployment strategies.
